HomeTech

Model : OEG619-3CRSOH7

**Parameter:**

Capacity: 60 L  
 Top electric: 1.8Kw  
 Bottom gas burner: 2.5Kw  
 Temp. control: 130-250 C  
 Power: 220-240V, 50Hz  
 Product: 595x595x575mm

**Your ideal Kitchen appliances**

**Feature:**

Gas & Electric oven  
 Timer & temp touch control  
 4 function with rotisserie  
 A class energy saving level  
 Toughened glass  
 High efficient energy consumption  
 Easily clean enamel inner tank  
 interior oven light  
 Forced cooling & exhaust system

BUILT-IN OVEN COOKING FUNCTIONS

www.homotech.pk

**Oven lighting**  
 The light inside the oven is switched on, for example, when cleaning the oven chamber.

**Defrost**  
 This makes the frozen food thawing by circulation wind of ambient temperature, keeping food in its original way.

**Bottom element on**  
 The oven is operated by using only the bottom heater, e.g. use for final baking from the bottom.

**Top element on**  
 The oven is operated by using only the top heater, e.g. use for final baking from above.

**Bottom and top heaters on**  
 Setting the control to this position allows the oven to be heated conventionally.

**Grill element on**  
 Setting the control to this position allows the dishes to be grilled on the grate.

**Fan and combined grill on**  
 The oven activates the combined grill and fan function. In practice, this function allows the grilling process to speed up and an improvement in the taste of the dish.

**Fan and grill**  
 The oven activates the grill and fan function.

**Rear element with fan**  
 This cooking mode allows homogenous distribution of the heat inside the oven, making it possible to cook several items of food at the same time.

**Rotisserie with grill**  
 These symbols allow use of the rotisserie with grill or top heater on.

**Gas heat**  
 Setting the control to this position allows the oven to be operated by gas.

**Rear and bottom heat with grill**  
 Grill element and bottom element spread heat with fan around the food, keeping the meat golden and tasty in each side.

**Rear and bottom element**  
 Balance the heat from rear element and bottom element inside the oven by fan, this function is great for cooking Pizza, cake and cookies.
